

AQUANATION

Project description

Located in Melbourne's eastern suburb of Ringwood, Aquanation is now set to be the home of the Australian Diving Centre. The project contains a 10 metre high diving platform and dry diving facilities along with a main 50 metre – 10 lane pool, heated pool, children's pool, saunas and a gym. The \$52 million centre with environmentally-friendly design should reduce the centre's running costs by approximately \$250,000 a year.

Pentair products

23 x Starline motor pumps in varying sizes from 50x32-160 to 150x125-315 and motors from 0.75kW to 18.5kW on variable speed operation. These pumps are of zinc free bronze and stainless steel construction.
